Homework Schedule

- See **Homework** tab in **Course Organization** doc

Week Terminology

- This week = current course week (starts with lecture)
- Last week = the course week before this week
- Next week = the course week after this week

Homework Submission

- Submit homework as PDF to course management system
 - Name files team-xx-cw-yy.pdf
 - Where x is your team number
 - And y is the course week number
 - Fill up xx and yy with leading zeros if necessary
- Submission closes right before class (submit by then)

Project Pitch (Type of Homework)

- Every team can submit exactly one pitch
 - The pitch must fit into one of three categories
 - New (to be created) open source project
 - Existing successful community open source project
 - Software of existing commercial vendor
 - The pitch must explain why
 - This project / software is a good fit for the course
 - Is it fun?
 - Does it make sense?
 - Will everyone find enough material?
 - In three slides or less; be prepared to present it

Homework Bundle (Type of Homework)

- Provide your business model so far
 - Answer questions according to homework bundle # slides
 - Do not add slides; stick to three slides per student per session
 - More slides are acceptable in (ungraded) backup section
- Be prepared to present in exercise session
 - 1min. for each question / slide (3min. in total)
 - 1min. for an additional question we will ask

Final Report (Type of Homework)

- Provide business plan based on business model canvas
 - Use final report template; don't go beyond ten pages

Thank you! Questions?
